Something big needs to change in how we prepare youth to vote, expand the electorate, and create a more equitable and representative democracy. CIRCLE Growing Voters is a new report and framework that challenges institutions and communities to take an active role in equitably preparing the next generation of voters to participate in democracy. Join us on June 14 as we release a major report and launch this initiative. The 2022 YES! ranks the Senate and Governor races in which youth can have a decisive impact on 2022 election results. CIRCLE's 2022 Youth Electoral Significance Index quantifies young people's potential for electoral impact and, critically, to serve as a tool for stakeholders to direct their efforts and resources to reach diverse communities of youth across the country. Read our 20th anniversary report and consider how you can partner with us for the work ahead. 2021 marked CIRCLE's 20th anniversary. We produced a report to document our impact over the past two decades and to highlight how we'll address the challenges of preparing all youth for democratic participation in the years to come. CIRCLE Director Kei Kawashima-Ginsberg served as principal investigator of this effort to transform civic education in America. Preparing all young people to be engaged and effective participants in their communities and in democracy requires more than just reinvesting in civic education: it requires reshaping it to meet the needs of a diverse 21st century student body. We're sharing comprehensive data and analyses on young people's participation and influence on the 2020 election. The 2020 election cycle was unprecedented: young people coped with a pandemic, took to the streets, and cast early ballots in record numbers. Our in-depth analyses of youth participating we're providing data and insights on their engagement and impact at every level in the 2020 election. In 2020, according to CIRCLE, over 50 percent of Gen Zers said they tried to convince peers to vote, often by sharing online petitions and other resources for their peers to see. "Indicators of youth engagement in a midterm election are pretty good, relatively speaking," said CIRCLE Deputy Director Abby Kiesa. According to CIRCLE, the slow pace of newly eligible voter registrations in dozens of states is "a call to action for campaigns and organizers" who want to engage young people in the democratic process.
